Meeting with Roy Day

Minutes

The committee met three times and focused on issue 1, which is a survey that would collect ideas from all constituents regarding ways to either create revenue or save money. The survey was developed but has not yet been posted or disseminated. That will be the first order of business next year.

Issue 2 is the proposal to develop a paperless campus. Paul Challen and Desmond Kwan developed the idea further and spoke to others on campus. Roy Day, chair of Faculty Council, suggested that time might be right now to enlist faculty Council support of the idea, another order of business next year.
